Extension description

Personal Discount Magento extension allows you to target any shopping cart rule to selected customers only. Just select those customers you would like to apply a rule to, and the personal discount is done! Personalization can be easily turned off/on with just one action.

Main features:

- Ability to select customers for discount;
- Easy installation;
- Complete multi-store support;

Extension installation

1. Backup your store database and files
2. Unzip extension archive and go into it
3. For security and safety issues your store is needed to be moved into maintenance mode. Just copy 'maintenance.flag' file from extension folder to your store root folder and Magento will put your store to maintenance mode automatically
4. Go to 'source' folder and upload all files and folders from it directly to your store root
5. After copy process compliance, delete 'maintenance.flag' file from your store root folder
6. Clear your store cache

Congratulations! That is it!

Step By Step configuration

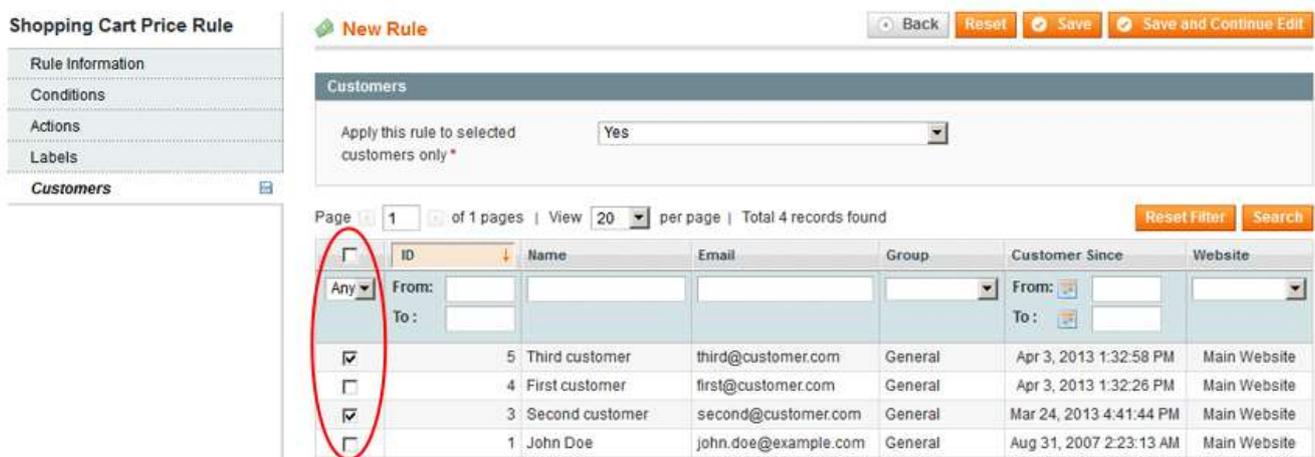

1. Log into administration panel and go to Promotions → Shopping Cart Price Rules:

2. Click “Add new Rule” button or edit any existing shopping cart rule.

3. Switch to “Customers” tab and select “Apply this rule to selected customers only” option: select “Yes” to turn on the rule personalization, or “No” to turn it off.

4. If the rule personalization is turned on, the customers list appears below:

A screenshot of the 'New Rule' configuration page for Shopping Cart Price Rules. The page has a sidebar on the left with tabs for 'Rule Information', 'Conditions', 'Actions', 'Labels', and 'Customers'. The main content area is titled 'New Rule' and has a 'Customers' tab selected. A dropdown menu is set to 'Yes' for 'Apply this rule to selected customers only *'. Below this is a table of customers with columns for ID, Name, Email, Group, Customer Since, and Website. The table shows 4 records. The first two records, 'Third customer' (ID 5) and 'Second customer' (ID 3), have their selection checkboxes checked. A red circle highlights the 'Any' dropdown menu in the table's header area. At the top right of the main content area, there are buttons for 'Back', 'Reset', 'Save', and 'Save and Continue Edit'. At the bottom right of the table, there are buttons for 'Reset Filter' and 'Search'.

ID	Name	Email	Group	Customer Since	Website
5	Third customer	third@customer.com	General	Apr 3, 2013 1:32:58 PM	Main Website
4	First customer	first@customer.com	General	Apr 3, 2013 1:32:26 PM	Main Website
3	Second customer	second@customer.com	General	Mar 24, 2013 4:41:44 PM	Main Website
1	John Doe	john.doe@example.com	General	Aug 31, 2007 2:23:13 AM	Main Website

5. Check target customer(s) in the list and save the shopping cart rule.

Extension uninstall

1. Remove application files from your store file system (all files, which you have in extension pack)
2. Delete the following tables from your store database:
 - magalter_personaldiscount_extra_data
 - magalter_personaldiscount_target_customers
